

HOUSE #19

CAROLINE + MARVIN BEN-ARI

1. Eliminate entrance hallway by removing wall between living room and hallway.
2. Form small vestibule by adding an extra door outside the main entrance. If this is not possible, add a canopy over the front door.
3. Eliminate some of the steps to the main bedroom if possible.
4. Add another toilet, with sink. If this is not possible, put the present toilet separate from the bathroom.
