

CHANGES FOR THE HOUSES

1. Discuss with G.Kreyn the problem of 90 sq/mt.

Alper ~~from~~ family

2. Reject the following two things: sliding aluminum doors
low ceilings

3. ~~Manj~~ The most problematic changes:

- Andy

- Slyper

✓ - Bellin

✓ - Alper

- Bell-Kligler

ISSUES ON CONSTRUCTION DETAILS FOR ISRAEL

1. Is it realistic to think that the houses could be built without reinforced concrete frame, but only with Ytong blocks; is this a regular practice in Israel. What is the difference in price?
 2. Shutter problem. Are sheet metal shutters realistic and acceptable?
 3. How foundation will be formed?
 4. Available sizes of concrete blocks
 5. Plaster prices and availability of plasterers.
- ~~6~~ Insulation for slabs : Ytong or stereophome; what is the cheapest

PRELIMINARY COST ANALYSIS

1. Basic break down of cost in terms of major operations with Jonnathan's father.

2. Investigate, if possible, the following subcontractors and cost of operation:

- arched window
- wooden windows and doors *1.3 or 1.4 times as aluminum windows.*
- parapets
- plaster *\$10/sq.mt in traditional way.*
- garden walls, exterior staircases, in-fill foundation wall

IMPORTANT THINGS ABOUT THE HOUSES AND THE CONSTRUCTION TO BE DISCUSSED WITH G.KREYN ~~AND~~, UNDERSTOOD AND AGREED UPON BY HIM

1. Cornice
2. Parapet
3. Arched openings
4. Wooden windows and doors
5. Garden walls
6. Solid exterior stairs
7. Balconies and windrooms
8. Variation in heights of volumes - high rooms
