

There's a note in the frame about the  
change of the small size of the window with the  
change the thing on the window.

Measurement of the ceiling corners indicates we  
can't use plywood for the ceiling without anything  
else. So I will dispose with the gypsum board option  
and go with the various plywoods alternatives.

cornices affects the decking height  
on the roof. You see the # 2 (2x4) 905-2100  
we barely hear the phone from the side  
slot next Monday or Tuesday, okay?

All the best,  
Bob There's  
slot next Monday or Tuesday, okay?

All the best
