# 15. CHURCH

THE PROPOSAL IS TO BUILD A CHURCH AT THE WATERFRONT. THIS CENTERING FUNCTION TOGETHER WITH ITS BUILDING HELPS TO DEFINE THE AREA WHERE THE PEDESTRIAN WALKWAY -- COMING FROM THE PLACE BEHIND THE FREEWAY -- REACHES THE WATERFRONT. THE CHURCH SHOULD SERVE ONE OF THE DENOMINATIONAL RELIGIONS. IT IS ENVISAGED TO HAVE A MAJOR CHURCH HALL PARALLEL TO THE WATERFRONT WITH A TOWER PHYSICALLY INTEGRATED. ADDITIONAL FUNCTIONS INCLUDE MEETING ROOMS, A SMALL LIBRARY, AND OFFICES TOGETHER WITH A SMALL CHILD CARE. ALSO A HOUSE WITH FLATS FOR PERSONNEL AND SOME GUEST ROOMS WILL BE PROVIDED.

USING THE IDEA OF 'SYMMETRY' THE FORM OF THE CHURCH MIGHT WANT TO LOOK AS FOLLOWING:

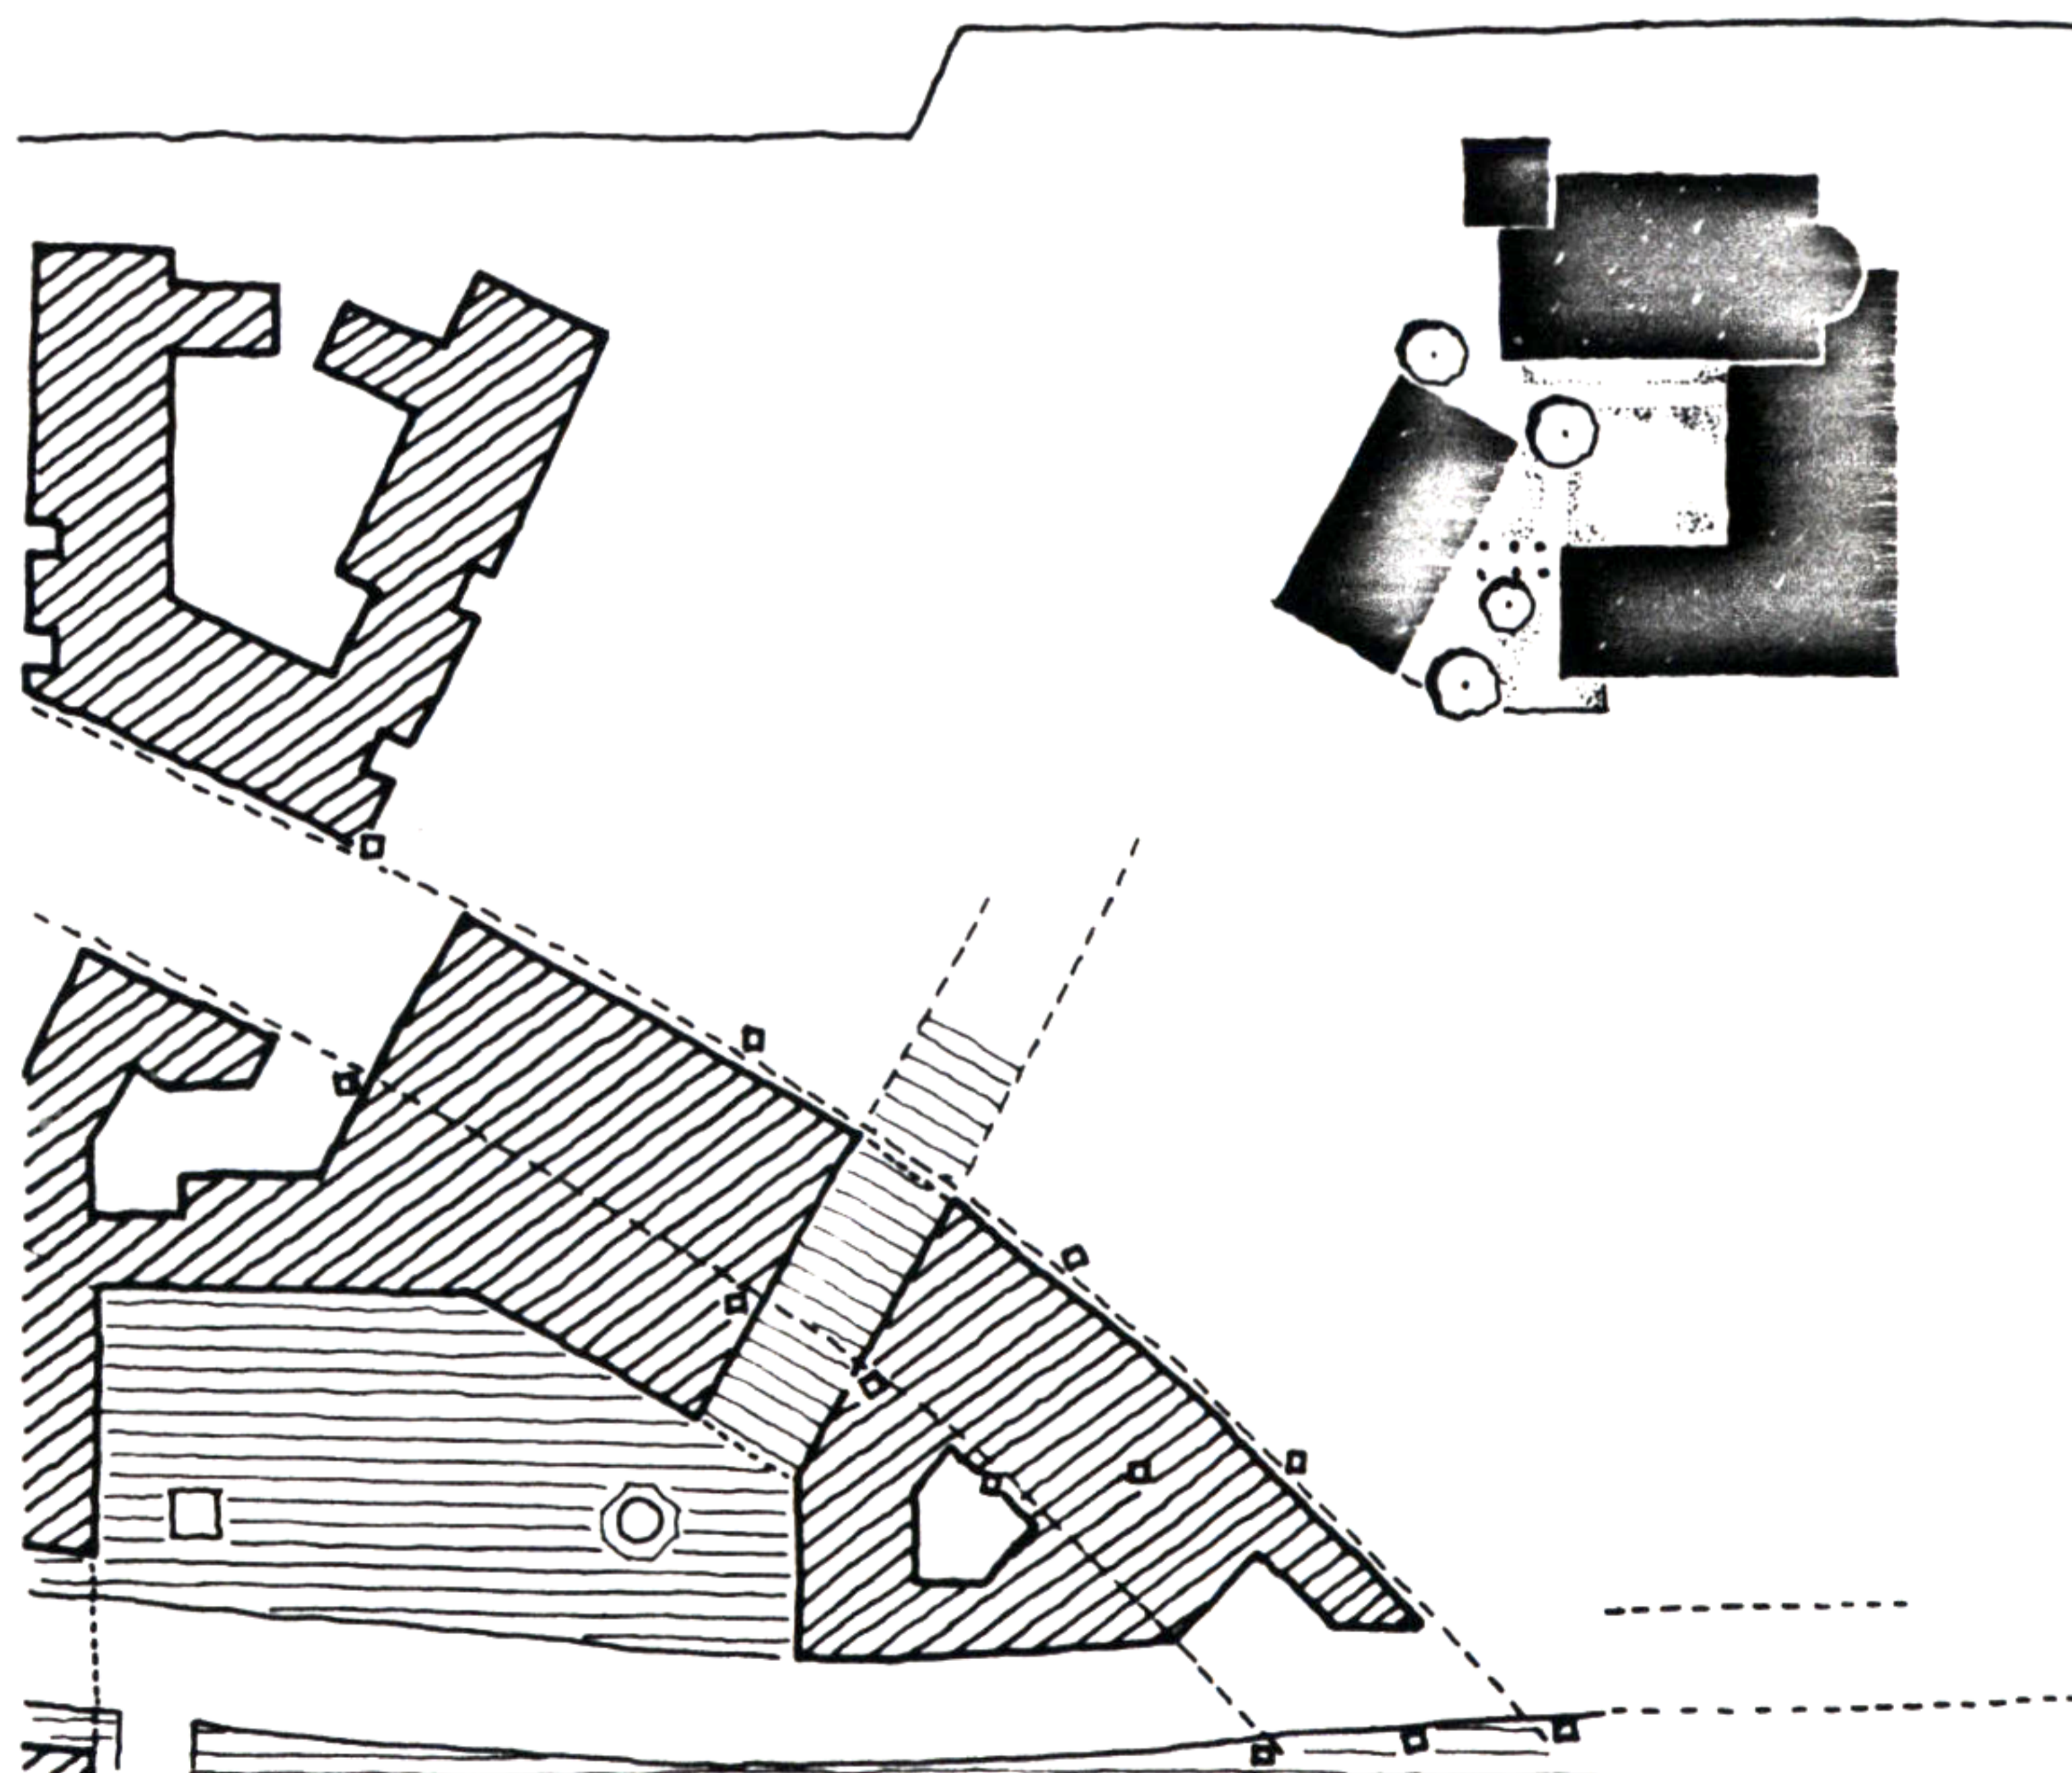

CLOISTER ARCHETYPE

BUT BECAUSE OF THE 'FORCES' INVOLVED IT MIGHT LOOK LIKE THIS:

CLOISTER PHENOTYPE

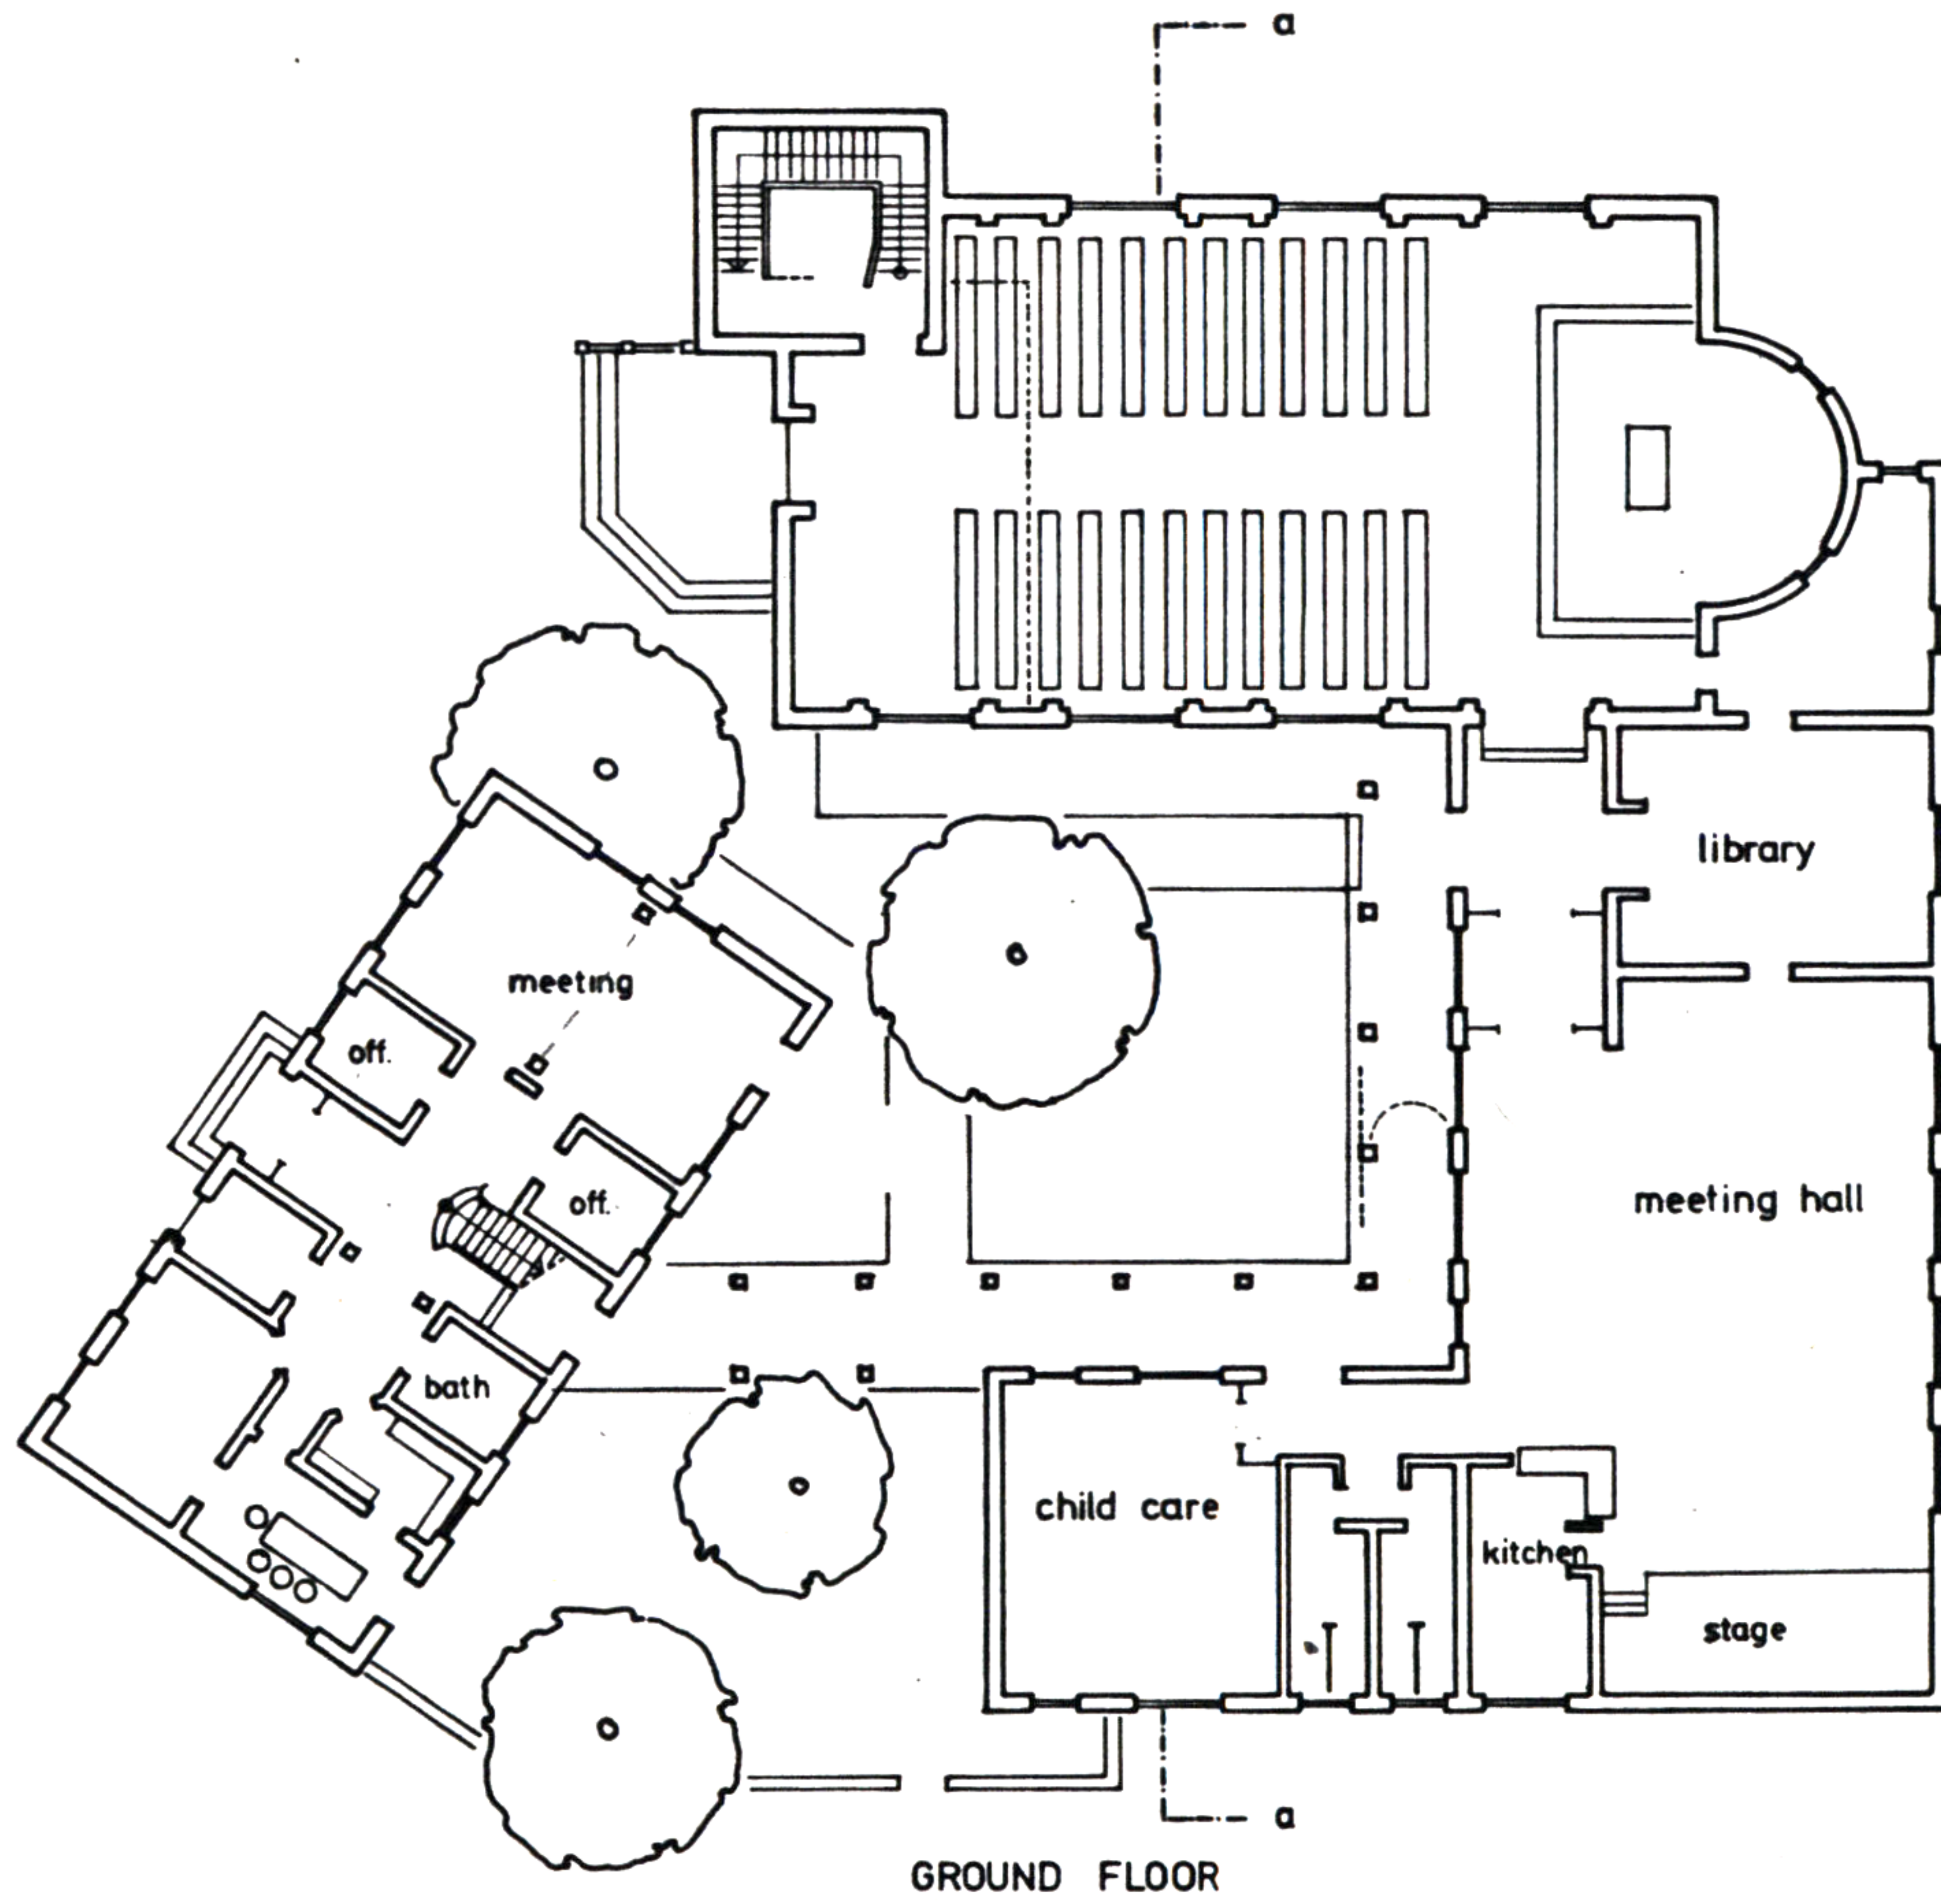

SITE PLAN
