COMMUNITY PARTICIPATION WORKSHOP:

The professional design team is here to listen to you first. Your ideas will provide a foundation for their creativity.

- 8:30 - 10:30 La Jolla Village Walk
See instruction in your booklet.
- 10:30 Find a table and write down your primary impressions from your walk. What did you discover that you had never seen or known before?
- 10:30 - 11:15 As a group, write down and draw on your map the best things about La Jolla. What qualities do you want to preserve? What are the special places in the village and on the waterfront?
- 11:15 - 11:30 Presentation of your table's findings.
- 11:30 - 12:15 During your walk, you have also thought about the potential of La Jolla - what changes would you recommend.
- Now work with your group to list opportunities for change. For now, don't worry about costs or political difficulties. We will do reality tests later. What do you envision for La Jolla? After listing proposals, find out which ones your group agrees on.
- 12:15 - 12:30 Presentation of your table's proposals.
- Summary
- Description of weekend events.

DESIGN CHARRETTE

- 1:00 The design team will now meet to share their discoveries about La Jolla and what they learned from you this morning.
- Since this is a process of both synthesis and inspiration we ask that you leave them alone for a few hours. If you are curious how they are coming along, you can come back later.

Sunday

- 1:00 p.m. Presentation
- The Design Team will present their initial findings and proposals for La Jolla.
