

Centers

Each entity contains a field of smaller entities, which create a gradie leading to one or more centers.

The Great Mosque from the air, like a block "airfully hollowed out"
Pages 98, 99: The Great Mosque, the town of Kairouan, and the surrounding region, from the air

4-17
8-11-7

In which of these two buildings can you feel that a major focal point is induced by the rest of the entities?

Boundaries

Entity which combines and separates at the same time

B-19 SANCHEZ

Look how differently these two buildings are set to meet their surrounding. Which of these two is more unified with its context?
