

positive-negative  
 Both the thing itself and the space next to it are clear entities,  
 which have good shape.

S-6 Pg. 11  
 owl Korea, Yi dynasty  
 (sixteenth century). Height: 8.8 cm.  
 11

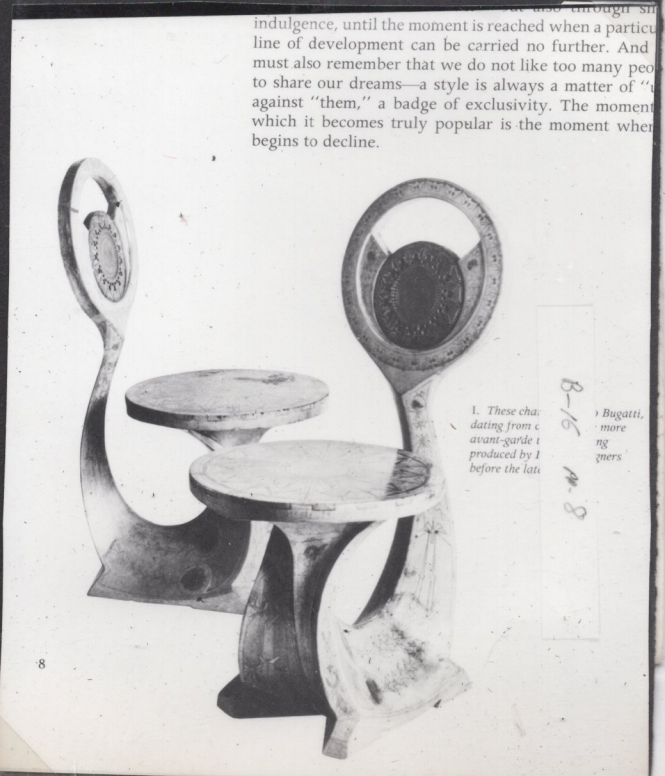

Both in these cases the things themselves are clear entities.  
 But in which of them the negative space -the space next to it, becomes  
 positive?

Good shape

64. Ceremonial stand, porcelain. Korea. Yi dynasty (eighteenth century). Height: 8 cm.

...we also through sin  
 indulgence, until the moment is reached when a particu  
 line of development can be carried no further. And  
 must also remember that we do not like too many peo  
 to share our dreams—a style is always a matter of “t  
 against “them,” a badge of exclusivity. The moment  
 which it becomes truly popular is the moment when  
 begins to decline.

1. These chairs  
 dating from the  
 avant-garde  
 produced by  
 before the late  
 Bugatti,  
 more  
 designers
