Dear Sir,

Further to my letter to you, dated July 19, 1982 and to our two telexes that followed, I am glad to inform you that the Jewish Agency is ready in principle to agree to my ideas as stated there and which may clear a way out of the entanglement into which the planning works got into

I also succeeded to convince most of the settlers in Moshav Shorashim to agree to the above suggested arrangement, specially since they know that any further delay - as in the case of the five houses - will be corrected by us.

It is understood that the Jewish Agency, being a public institution, will require that the above be stated in a binding document and I understand that same will be forwarded to you for execution.

Yours faithfully,

Gabriel Krayn
